Dear Parents and Carers,

It has been another successful week at Cleves with the children working exceptionally hard. I managed to visit all the classes and have a chat with the children about their learning and the new knowledge that they were acquiring.

Thank you for all the contributions towards Jeans for Genes Day. As a school we were able to raise **£269.31**.

Year 5 and 6 children will be returning from their residential later today. They have had an incredible time and the staff members have informed me that behaviour has been exceptional—another reason to be proud of our pupils at Cleves. I will be sharing all the photos in next week's newsletter.

Year 3 Investigations

This week in Year 3 science we have investigated some Rocks. We were able to identify if the rocks were permeable or non permeable. In our investigation, we were looking out to see which rocks produced bubbles. If they produced bubbles, the children were able to recognise that they were permeable. We looked at five different types of rocks including Marble, Glass, Granite, Sandstone and Chalk. Year 3 identified that sandstone and chalk were porous. This meant that these rocks had small holes allowing water to pass through which meant that they were permeable. The children enjoyed investigating the rocks and are working hard to develop their investigation skills.

Attendance:

Our Attendance winners are: **4S** with 98%

Please remember that our school target is **97%**!

We are delighted to report that the children in our Pathways 2 are thriving as they settle back into their daily routines. During our Autism Attention Bucket sessions, we have witnessed significant progress in the realm of joint attention.

In Stage 3 of these sessions, our dedicated adults lead the way by demonstrating various activities to the group or individual child. This interactive approach captivates our young learners and fosters their engagement and participation.
